Engineering Experience Evaluation Questions

The experience evaluation survey allows you to reflect on your experience and therefore helps you with your future job search. The survey also helps ECS to educate students about future opportunities, anonymously of course.

Note: This is a preview of the evaluation questions. **You will receive the actual evaluation survey via email approximately 2 weeks prior to the end of each semester worked.** *For students enrolled in ENGR 4191, the survey is included in your assignments in CarmenCanvas and is required to receive a Satisfactory grade for the course.
